PRESIDENT'S REPORT 19 April 2017

EXCITING TIMES: Saturday 6 May 2017 marks the grand opening of Spanlift Stadium – home to the Satellite City BMX Club.

Whilst the Satellite City BMX Club will open the venue on 6 May 2017, it is important to understand that not all planned upgrades are complete; this is due to Darwin succumbing to a massive wet season. In essence, everything under the roof will be complete; outside of the roof is still a work in progress. Works still progressing are:

1. Landscaping – the spectator area around the stadium will be grassed for spectator comfort however, on account of the wet weather, the grass may not yet be present;
2. Car parking – depending on the weather between now and the opening day, the car park may not be formed and parking may be restricted to external to the facility (further detail will be posted closer to the day).

I'd like to take an opportunity to thank our major sponsors; the Northern Territory Government for funding the project and Spanlift Australia for building the roof. There are also a number of other sponsors that I'd like to take the opportunity to thank; these sponsors are listed below.

To ensure the site is ready for the opening, on Sunday 23 April 2017 there will be another working bee. Of primary importance is whipper snipping all long grass around the boundary and a general tidy up. Whilst anyone is welcome to attend, if you bring your children, they must be kept off the track; this preserves the condition of the track (a lot of hard work by our volunteers has gone into track readiness).

On Sunday 7 May 2017, the Satellite City BMX Club will be hosting a *come and try day*; this is a day especially for people who have never been to BMX or ridden BMX before. To that end, our members are encouraged to tell your friends. The more riders the better the competition / racing; are you up for it? If so, tell a mate to come and try BMX on 7 May.

I look forward to seeing you all trackside soon; the next report will be post opening.

Regards

Daniel Shean
President
Satellite City BMX Club
